

Governor Abbott has recently announced the removal of all State imposed COVID-19 mitigation restrictions as of Wednesday, March 10th including mask use in public spaces.

Please expect that we will continue to monitor and comply with the guidance of government authorities, and adjust our operations appropriately should State or local situations change.

This impacts your experience at Burlison Audiology Clinic in the following ways. As of Wednesday, March 10th masks are no longer required. This is a personal decision for patients and their accompanying guests if they choose to continue to wear a mask.

Our appointments will still be scheduled as usual with little to no overlap for patients in the waiting room.

Please call and speak with Dr. Dean if you have further questions.
